Lovibond[®] Water Testing

Tintometer® Group

Reviewed on 07/24/2024

Safety Data Sheet

acc. to OSHA HCS (HazCom 2012)

Printing date 07/24/2024

1 Identification

· Product identifier

- · Trade name: Alkalinity Reagent ALK3
- · Catalogue number: 56Z013298, 56L0132, 56L013230, 56U013230, 56L013265, 56L013298, 56U013265, 56U013298, SDT010
- · Application of the substance / the mixture: Reagent for water analysis
- Manufacturer/Supplier: Tintometer Inc. 6456 Parkland Drive Sarasota, FL 34243 USA phone: (941) 756-6410 fax: (941) 727-9654 www.lovibond.us Made in Germany
- · Emergency telephone number: + 1 866 928 0789 (English, French, Spanish)

2 Hazard(s) identification

· Classification of the substance or mixture

GHS05 Corrosion

Corrosive to Metals 1 H290 May be corrosive to metals.

Skin Corrosion 1A H314 Causes severe skin burns and eye damage.

Eye Damage 1 H318 Causes serious eye damage.

· Label elements

- GHS label elements The product is classified and labeled according to the Hazard Communication Standard (HCS).
- · Hazard pictograms

Signal word Danger

- · Hazard-determining components of labeling:
- sulphuric acid 29 %
- · Hazard statements

H290 May be corrosive to metals.

- H314 Causes severe skin burns and eye damage.
- · Precautionary statements
- P260 Do not breathe mist/vapours/spray.

P280 Wear protective gloves/protective clothing/eye protection.

- P301+P330+P331 If swallowed: Rinse mouth. Do NOT induce vomiting.
- P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.
 - Continue rinsing.

P308+P310 IF exposed or concerned: Immediately call a poison center/doctor.

 \cdot Other hazards Acid burns have to treated immediately, as it may otherwise cause badly curing wounds.

	3	Com	position	/informa	tion on	inaredi	ents
--	---	-----	----------	----------	---------	---------	------

· Chemical characterization: Mixtures

· Description: aqueous solution

Composition and Information on Ingredients:

Cancer Status IARC: Strong inorganic acid mists containing sulphuric acid can cause cancer.

Percent ranges are used due to the confidential product information.

CAS: 7664-93-9 EINECS: 231-639-5	sulphuric acid	♦ Corrosive to Metals 1, H290; Skin Corrosion 1A, H314	20–30%
Index number: 016-020-00-8			
RTECS: WS5600000			
Additional information, For	the wording of the listed he	and phrases refer to eastion 16	

Additional information: For the wording of the listed hazard phrases refer to section 16.

4 First-aid measures

· Description of first aid measures

· General information: Immediately remove any clothing soiled by the product.

- · After inhalation:
- Supply fresh air.
- Call a doctor immediately.

• After skin contact:

Immediately wash with polyethylene glycol 400.

Immediately rinse with plenty of water.

Immediate medical treatment necessary. Failure to treat burns can prevent wounds from healing.

· After eye contact:

Rinse opened eye for several minutes (at least 15 min) under running water.

Call a doctor immediately. After swallowing:

Rinse out mouth and then drink 1-2 glasses of water.

Do not induce vomiting; immediately call for medical help.

Most important symptoms and effects, both acute and delayed

burns

after inhalation:

coughing

- breathing difficulty damage to the affected mucous membranes
- after swallowing:
- sickness
- vomiting
- diarrhoea
- pain
- strong caustic effect
- Danger:
- Danger of circulatory collapse.
- Danger of gastric perforation.
- Danger of pulmonary edema.

Indication of any immediate medical attention and special treatment needed:

If swallowed or in case of vomiting, danger of entering the lungs. Later observation for pneumonia and pulmonary edema.

5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- · Special hazards arising from the substance or mixture
- The product is not combustible.
- Formation of toxic gases is possible during heating or in case of fire.
- In case of fire, the following can be released:
- Sulfur oxides (SOx)
- Advice for firefighters
- Protective equipment:
- Wear self-contained respiratory protective device.

Printing date 07/24/2024

Trade name: Alkalinity Reagent ALK3

- Wear fully protective suit.
- Additional information
- Collect contaminated fire fighting water separately. It must not enter the sewage system.
- Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.
- Ambient fire may liberate hazardous vapours.

6 Accidental release measures

 Personal precautions, protective equipment and emergency procedures
 Advice for non-emergency personnel: Wear protective equipment. Keep unprotected persons away. Avoid substance contact. Ensure adequate ventilation Use respiratory protective device against the effects of fume/dust/aerosol.
 Advice for emergency responders: Protective equipment: see section 8
 Environmental precautions: Do not allow product to reach sewage system or any water course.

Methods and material for containment and cleaning up:

Ensure adequate ventilation.

Use neutralizing agent.

Absorb with liquid-binding material (sand, diatomite, universal binders).

- Dispose contaminated material as waste according to section 13.
- · Reference to other sections

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

- · Precautions for safe handling
- Advice on safe handling: Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.
 Hygiene measures:
- Do not inhale gases / fumes / aerosols.
- Do not get in eyes, on skin, or on clothing.
- Take off immediately all contaminated clothing.
- Wash hands before breaks and at the end of work.
- Do not eat, drink or smoke when using this product.

· Conditions for safe storage, including any incompatibilities

- Requirements to be met by storerooms and receptacles: Store in a cool location.
- Information about storage in one common storage facility:
- Store away from metals. Do not store together with alkalis (caustic solutions).
- Store away from flammable substances.
- Further information about storage conditions:
- Keep receptacle tightly sealed.
- Protect from heat and direct sunlight.
- Protect from exposure to the light.
- Protect from humidity and water.
- · Recommended storage temperature: 20°C +/- 5°C (approx. 68°F)
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Control parameters

10 Stability and reactivity

· Reactivity see section "Possibility of hazardous reactions"

· Chemical stability Stable at ambient temperature (room temperature).

Possibility of hazardous reactions

Reacts with metals forming hydrogen (Danger of explosion in case of large amounts!)

Corrosive action on metals.

When diluting, always add acid to water, never vice versa.

Diluting or dissolving in water always causes rapid heating.

Reacts with peroxides. Reacts with reducing agents.

Reacts with halogenated compounds.

Reacts with oxidizing agents.

Reacts with acids and alkali (lyes).

Reacts with ammonia (NH₃).

· Conditions to avoid Strong heating (decomposition)

· Incompatible materials:

metals combustible materials

organic solvents

· Hazardous decomposition products: see section 5

11 Toxicological information

· Information on toxicological effects

· Acute toxicity: Based on available data, the classification criteria are not met.

· LD/LC50 values that are relevant for classification:

	CAS: 7664-93-9 sulphuric acid			
Oral	LD50	2140 mg/kg (rat) (IUCLID) 510 mg/m³/2h (rat) IUCLID		
Inhalative	LC 50	510 mg/m³/2h (rat) IUCLID		

· Primary irritant effect:

· on the skin: Causes severe skin burns.

· on the eye:

Causes serious eye damage. Risk of blindness!

· Sensitization: Based on available data, the classification criteria are not met.

· Carcinogenic categories

Cancer Status of Sulfuric acid: The International Agency for Research on Cancer (IARC) has classified "strong inorganic acid mists containing sulfuric acid" as a known human carcinogen, (IARC category 1). This classification applies only to mists containing sulfuric acid and not to sulfuric acid or sulfuric acid solutions. A2 (Suspected for humans) by ACGIH

Az (Suspected for humans) by ACC

· Synergistic Products: None

· CMR effects (carcinogenity, mutagenicity and toxicity for reproduction): The following statements refer to the mixture:

- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.

· Reproductive toxicity Based on available data, the classification criteria are not met.

• STOT (specific target organ toxicity) -single exposure Based on available data, the classification criteria are not met.

• STOT (specific target organ toxicity) -repeated exposure Based on available data, the classification criteria are not met.

· Aspiration hazard Based on available data, the classification criteria are not met.

Additional toxicological information:

Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach. The aerosol is corrosive to the eyes, the skin and the respiratory tract. Inhalation of aerosols may cause lung oedema.

CAS: 7664-93-9 sulphuric acid

(source: GESTIS)

Main toxic effects

Acute: Irritation up to chemical burns to the mucous membranes and skin, danger of serious damage to the eyes and lungs Chronic: Irritation to the eyes and airways, erosion of the teeth, damage to the skin

Further Information:

Concentrated S. differs considerably from dilute Sulfuric acid with regard to chemical properties and effects. With increased dilution Sulfuric acid acts less aggressively.

· Other information No further relevant information available.

Avoid transfer into the environment.

13 Disposal considerations

· Waste treatment methods

Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Hand over to hazardous waste disposers.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agent: Water, if necessary with cleansing agents.

· Pennsylvania Special Hazardous Substance List:	
CAS: 7664-93-9 sulphuric acid	E
· EPA (Environmental Protection Agency)	
None of the ingredients is listed.	
· NIOSH-Ca (National Institute for Occupational Safety and Health)	

• Information about limitation of use: Observe national regulations where applicable:

Employment restrictions concerning young persons must be observed.

· Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· Relevant phrases

H290 May be corrosive to metals.

H314 Causes severe skin burns and eye damage.

· Version number / date of revision: 6 / 07/24/2024

Abbreviations and acronyms:

STOT: specific target organ toxicity SE: single exposure RE: repeated exposure
