Lovibond® Water Testing Tintometer® Group

HARDNESS RESIDUAL TEST KIT RH-1

For the standard situation in water testing

- HARDNESS RESIDUAL TEST KIT RH-1
- These test kits are specially developed for testing boiler, cooling and industrial process water. They make use of both colorimetric and titrimetric techniques. Each test kit contains all the necessary chemicals and reagents in liquid or powder form to conduct the tests. The detailed instructions

contain a step-by-step explanation of the test procedure. The kits are supplied in a sturdy, compact plastic case. Keenly priced refill reagent packs are available for all test kits.

Measuring Range

Test Name	Measuring Rang
Hardness residual	1 drop = 0.1 or 0.05 °dł

Technical Data

Dimensions 90 x 72 x 36 mm Weight with Packag- 90 g

Rapid quantitative analysis

Ideal for boiler, cooling and process water

Field and laboratory tests possible

Economical due to inexpensive refill units

Part Number: 2418714
