

Lovibond® Water Testing

Tintometer® Group

Chelant Free Drop Test Kit

For the measurement of free chelant

The high quality Lovibond® General Drop Test Kits and reagents are available in a wide range of parameter specific options to suit many analytical requirements. Each self-contained Kit is housed in its own rugged carry case and comes complete with all necessary equipment such as instructions, reagents, syringe and test bottle or test cell for 100 tests.

Derived from laboratory burette methods, the Lovibond® drop test range forms an integral part of the analytical program. The reagents are quick to use and give results fast.

- Ideal for mobile treatment engineers
- Compact & portable design
- Easy to follow instructions including pictograms
- Complete with all necessary equipment

Chelant Free Drop Test Kit

Lovibond® offers a wide range of single parameter Drop Test Kits for individual test requirements. They are for use in various water testing applications including potable water, process water, industrial boilers & cooling systems, swimming pool and waste water treatment. Drop Tests work by a simple colour change and are derived from laboratory burette methods.
