

Lovibond® Colour Measurement Tintometer® Group

Saybolt - EC3000

Part Number: 135160

Conformance filters are assigned a nominal value and the company always endeavors to match this value as closely as possible. On occasion, because of the unique manner of the glass making process, it may not be possible to match the requested values exactly. The values achieved and the performance tolerances expected will, of course, always be reported.

Saybolt - EC3000

A single glass conformance filter for checking the PFXi 880, 950 or 995 in Saybolt scale.

Technical Data

Glass Standard Values	Approximate Value: - +20 - +0 - Zero baseline
