

Lovibond® Water Testing Tintometer® Group

Legionella Test Kit, Industrial, 1 test

The World's Fastest *Legionella* Test

Legionella is the causative agent of Legionnaire's disease, a potentially fatal form of pneumonia. Guidelines exist across the world for the control of Legionella.

In 2002, the Health and Safety Executive released guidelines for the control of Legionella, known as the L8 guidelines. These guidelines detail the key parameters that should be tested on a weekly and monthly basis to minimize the risk of Legionella proliferating to harmful levels in open water system.

The Lovibond® Legionella "L8" Test Kits contain the recommended tests for both weekly and monthly monitoring.

- Conforms to regulatory guidelines
- Weekly and monthly testing
- Chlorine and Bromine options
- Easy-to-use, uncompromised accuracy

Part Number: 56B006601

Legionella Test Kit, Industrial, 1 test

The Single Test Kit is for detecting *Legionella* in a water sample. is ideal for users who require the increased test accuracy associated with a filtered sample.

With results in 30-35 minutes, the test allows for immediate understanding and response to the water conditions. Regular use will increase confidence in your *Legionella* control procedures and reduce risk of outbreaks and litigation!

Kit supplies everything required for 1 test.

Limit of Detection

100 CFU/l

No. of Tests

1

Delivery Scope

- 1 Test Strip with Dispensing Pipette
- Recovery Buffer Syringe
- Sample Collection Jar
- Single-use filter
- 60 ml syringe
- Instruction Manual
