

Lovibond® Colour Measurement Tintometer® Group

EBC Color Filter Set

Part Number: 139400

Conformance filters are assigned a nominal value and the company always endeavors to match this value as closely as possible. On occasion, because of the unique manner of the glass making process, it may not be possible to match the requested values exactly. The values achieved and the performance tolerances expected will, of course, always be reported.

EBC Color Filter Set

A set of five glass conformance filters for checking PFXi instruments in EBC scale.
